

Allsorts craft and activity ideas for 5 May

Boat

Use various junk/recycling items to make a boat, such as as an egg box, straws, fabric, cardboard.

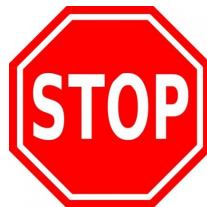

Storm sights and sounds

Use pots and pans with a wooden spoon to create a loud noise!

Use some thin fabric such as a small sheet or a scarf to wave around for the wind.

Make a shaker from an old yoghurt pot with a kitchen towel attached over the top, or a small empty bottle with lids or a takeaway pot with lid, fill with rice for a quieter sound, fill with large pasta for a louder sound .

Tip : don't overfill so the filling has space to move around !

Play stop and go games together.
