

Allsorts Craft/activities

1. Use blue paper or colour the paper, fold into 3 equal sections (landscape) , stick fish and other sea creatures on the 2 outer sides. Draw lots of people walking through the parted Red Sea.

2. Water play : either in the bath or using a bowl try to push the water to each side and make it stay there !

3. Shakers : You could make shakers out of yoghurt pots or empty water bottles filled with rice , pasta or grains. Seal the top carefully with foil or material. Shake to make lots of noise, this could sound like the sea .
