

Allsorts craft and activity sheet Jesus Calms the storm Matt 8 v 23-37

Craft

You can make homemade instruments to create the sound of the storm, wind and waves.

- If you have 2 paper plates, these can be stuck or stapled together, add some rice, lentils or grains and seal up. Decorate
- An old plastic bottle with a lid works well, just add some pasta, rice or grains and decorate.
- Finally, an empty pot such as a yoghurt pot is good, add some grains, rice or pasta as above, and cover with foil or material and an elastic band.

You can experiment with how much to add, the sounds work well when there is plenty of space for the grains to move and bang against the sides and each other!

Make sure any lids or coverings are well secured or have a vacuum cleaner to hand for the mess!

Activity :

Water play is always a lot of fun, whether that is in the bath where you swish around and play or splashing in the puddles outside when it rains. Alternatively you may want to set up a bowl or tub in the garden, add plastic boats and people and see what happens when you splash around. Have fun!
